

Join us for our ISO 9001:2008 Internal Auditing Course!

In just two days, you'll gain the knowledge and skills you need to audit your quality system! We'll be talking about auditing principles and process auditing techniques, as well as reviewing the ISO 9001:2008 standard itself.

The auditing methods taught in this course are based on the ISO guidelines for auditing: ISO 19011. You'll even get to practice your new process-auditing skills by role plays involving real-life case studies, and at the end of the second day, you'll receive a course certificate.

Agenda:

Day One

- ISO overview
- Audit principles
- ISO 9001:2008 Standard requirements

Day Two

- Process auditing
 - Role playing
 - Corrective action and preventive actions
 - Reporting effectively on auditing results
-

"Our certification to the ISO standard was greatly facilitated by Purdue's Technical Assistance Program (TAP). The competent skills and professional leadership demonstrated by Rick Ring of that office while structuring and organizing our efforts could not have been better. I would highly recommend their services."

- Bob Whitted, Quality Manager,
Noble Industries

Who should attend? Management representatives, quality professionals, and/or personnel functioning as internal auditors.

Fee: \$525 per attendee. Includes handouts, certificate, lunch for two days.

To Register: Visit www.mep.purdue.edu/events under Quality & Environmental Improvement.

How We Can Work With You: In addition to our Internal Auditing courses, Purdue University's Manufacturing Extension Partnership provides on-site implementation and consulting services and offers public workshops.

For More Information: Contact Dietra Rosenkoetter, Senior Account Manager at 317-275-6812 or dietra@purdue.edu.
