

# TRAIN-THE-TRAINER

## Green Generalist Train-the-Trainer

- Two-day workshop in which participants complete the one-day Green Generalist simulation, then spend a day discussing the key concepts and instruction processes.
- Includes training kit with materials for simulation, facilitator guide, PowerPoint presentation, and software to print instruction materials.

## Green Specialist Train-the-Trainer

- Two-day workshop in which participants complete the chosen, one-day Green Specialist simulation, then spend a day discussing the key concepts and instruction processes.
- All six modules of Green Specialist Train-the-Trainer will be available in 2010.

## Waste Stream Mapping Train-the-Trainer

- Three-day workshop in which participants complete the two-day Waste Stream Mapping workshop, then spend a day discussing the key concepts and instruction processes.
- Participants will learn how to use facilitator guide and will receive software to print instruction materials and PowerPoint presentation.

## ■ WORKSHOP DATES

For information, go to [www.tap.purdue.edu/energy](http://www.tap.purdue.edu/energy).

## ■ REGISTRATION

E-mail [MEPworkshops@purdue.edu](mailto:MEPworkshops@purdue.edu) or call (800) 877-5182, ext. 620.

## ■ ABOUT US

The Technical Assistance Program, known as TAP, connects companies with Purdue resources and assists them in implementing state-of-the-art technologies. TAP also administers the Indiana Manufacturing Extension Partnership Center, which helps manufacturers implement lean manufacturing, quality systems, marketing, and other initiatives to improve their operations.

## ■ HOW WE CAN WORK WITH YOU

In addition to Green Enterprise Development, Purdue's Technical Assistance Program offers on-site or public workshops and provides implementation and consulting services.
